

## Provider Notice

**To:** All Network Providers  
**From:** PerformCare  
**Date:** January 12, 2026  
**Subject:** AD 26 101: Tobacco Cessation Resources

---

This notice is intended to inform all network providers of tobacco cessation resources available for Members. Providers are encouraged to actively support and refer individuals seeking assistance with tobacco cessation.

A comprehensive list of state approved Tobacco Cessation programs, organized by county, is available at: <https://apps.health.pa.gov/TREES/PACR/Public/RegistrySearch.aspx>

Tobacco use remains one of the leading preventable causes of disease and death in the United States. Cigarette smoking harms nearly every organ of the body, causes many diseases, reduces overall health in general, and is a particularly serious issue for persons with serious and persistent mental illness and/or substance use disorders. The Commonwealth of Pennsylvania has implemented a statewide comprehensive tobacco-use prevention program. Each Physical Health MCO (PH-MCO) and Behavioral Health MCO (BH-MCO) has developed work plans to assist in this statewide effort.

State-level initiatives include:

- Telephone Quitlines— to provide free counselling and nicotine replacement therapy (NRT) to eligible participants.
- Public health campaigns to counter tobacco marketing and promote cessation
- Monitoring tobacco sales to minors and enforcement of compliance standards.
- Screening, assessment and treatment services for tobacco dependence within a BH setting

**Provider action:**

Please ensure that tobacco cessation discussions are incorporated into routine care and that referrals to appropriate cessation services are offered. Providers play a critical role in promoting tobacco-free recovery and improving overall wellness among members.
